

► **RE: REACH Regulation**

Dear Customer

All products supplied by Park Electrochemical Corp. Subsidiaries including Nelco Products, Inc., Nelco Products Pte. Ltd. and Neltec, Inc. are defined as articles under REACH legislation. This means they are not required to be registered prior to importation into the European Union.

This letter also certifies that the 174 substances of very high concern listed in the table found on the ECHA website at <https://echa.europa.eu/candidate-list-table> are not intentionally added during production nor would they be expected to be present in the final product or have been tested and we certify that they are present in levels well below 1000 parts per million. The one exception to this statement is N4000-11 prepreg which contains between 1000 ppm and 2000 ppm of N,N-dimethylformamide, CAS 68-12-2.

The information is provided at the request of and without charge to our customers. Accordingly, Park Electrochemical Corp. assumes no liability for its use.

Sincerely

A handwritten signature in black ink that reads 'Doug Leys'. The signature is written in a cursive style and is positioned above a horizontal line.
